EDUCATION

Kennesaw State University – Kennesaw, Georgia
Bachelor of Science in Software Engineering, Minors in Computer Science
Graduation Date: Fall 2025
GPA: 3.80

- **Relevant Coursework**: Data Analysis , Programming and Problem Solving I + Lab, Programming and Problem Solving II + Lab, Object-oriented Programming (OOP), Discrete Mathematics/Structures, Technical Writing, Data Analysis, Database Systems, Professional Practices and Computing Ethics, Data Structures, Intro to Software Engineering, Operating Systems, Computer Organization, Software Architecture, Software Testing/QA, User Centered Design, Software Requirements, User Interaction Engineering, Software Project Management

Sprayberry High School – Marietta, Georgia
Honors Student
Graduation date: 2021
GPA: 4.00

RELEVANT SKILLS

- **Programming Languages:** Java, Python, C#, Swift
- **Certifications:** Hope Scholarship, GaDOE Employability and Hospitality Skills Certificate
- **Database Skills:** SQL, R, query optimization
- **Other Skills:** Microsoft PowerPoint, Excel
- **Security Fundamentals:** Basic grasp of secure coding practices and encryption
- **Problem-Solving**: Proficient in data structures and algorithms
- **Quality Assurance Methodologies:** Familiar with Agile methodologies, test planning, and documentation, including regression, performance, and user acceptance testing

WORK EXPERIENCE

General Devices LLC – Software QA Engineer Intern
August 2024 – January 2025

- **Mobile App Testing (CAREpoint Go):** Performed daily testing on the CAREpoint Go app, ensuring functionality, user experience, and adherence to software specifications.
- **Test Plan Development:** Designed and implemented comprehensive test plans, covering various features and user scenarios to identify defects and ensure software quality.
  • **Bug Tracking and Reporting:** Logged, tracked, and communicated software bugs and issues using project management tools, collaborating with developers to resolve them efficiently.
  • **Cross-Team Collaboration:** Worked closely with the engineering and development teams to ensure that the final product met business requirements and client

expectations.
• **Automated Testing Scripts:** Assisted in developing and executing automated test scripts, streamlining the testing process and improving efficiency.
• **Quality Assurance Documentation:** Created detailed QA documentation, including test cases, test scripts, and test reports to ensure clear communication of testing procedures and results.
• **Agile Methodologies:** Contributed to daily standups and sprint planning in an Agile environment, promoting continuous improvement in the QA process.

Target Corporation – Service Advocate
August 2023 – Present

- **Technical System Management:** Service Associate for Target's software application, ensuring smooth and efficient operation and business interaction.
- **Customer Experience Enhancement:** Improved customer satisfaction by utilizing our system for timely and effective service.
- **Multifaceted Skill Application:** Applied skills in teamwork, responsibility, time management, and problem-solving in a dynamic environment.

Pyramid Pro. Management Services – Pool Monitor
2021 – 2022

- **Area Management:** Supervised and maintained community pools, ensuring the pool area was operational and cleanliness.
- **Security and Access Control:** Enforced access measures and verified people were residents of the community to maintain security.
- **Quality and Compliance:** Ensured compliance with health and safety regulations, maintaining high standards of cleanliness.
